DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I (claims 1-44, 51 and 52) in the reply filed on 6/11/2004 is acknowledged. Applicant cancelled claims 45-50.

2. However, examiner further restricts the elected claims to the following:

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-37, 51 and 52, drawn to multicomputer data transferring, classified in class 709, subclass 200.

II. Claims 38-44, drawn to Pattern Matching Access, classified in class 707, subclass 6.

4. Inventions Group I and Group II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it distinctly relates to remote data transferring. The subcombination has separate utility such as matching data characteristics from one data set to another (i.e. Pattern Matching Access).

Art Unit: 2157

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Mr. Ronald Chichester on October 12, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2157

FAILURE TO REPLY WITHIN THE PERIOD FOR RESPONSE WILL CAUSE THE APPLICATION TO BECOME ABANDONED (35 USC § 133). EXTENSION OF TIME MAY BE OBTAINED UNDER PROVISION OF 37 CFR 1.136(A).
